

CliffHanger MIPS velvet black M

Seite 1 von 2

FOR STEEP TRAILS AND BIG LINES

The CliffHanger MIPS is the flagship half-shell helmet in the ABUS lineup. When riding up and down steep trails, the CliffHanger MIPS offers excellent ventilation and is packed full of features to improve the riding experience.

Lighter, better ventilated and no-fuss TriVider helmet straps - the CliffHanger scores. The ZoomAce MTB adjustment system is adjustable vertically and horizontally, ensuring that the helmet is comfortable and sits firmly on the head, no matter how rowdy the terrain gets. The inner EPS is formed inside a three-part outer shell, making a lightweight and rugged helmet. The inclusion of MIPS adds an additional layer of protection in the event of a crash. .

With the CliffHanger, we have created a helmet that knows no limits.

Technologies

- Multi-Shell In-Mould for a permanent bond between the outer shell and the shock-absorbing helmet material (EPS)
- Zoom Ace MTB: Height-adjustable adjustment system to fit the head circumference
- Ponytail compatibility: Helmet well suited for ponytail wearers
- Laterally adjustable, non-slip TriVider strap system
- MIPS: Impact protection that protects the brain, especially when the cyclist's head hits the ground at an angle during a fall.
- ActiCage: Structural reinforcement integrated in the EPS.
- Moulded lower shell for added durability
- Height-adjustable visor
- GoggFit: Goggles are easily stored under the visor when not being used.
